- .NET Framework 3.5 SP1 (FREE)
- Internet Information Services (IIS) 6.0/7.0
- SSL Certificate (for HTTPS secure connection)

IV: REQUIREMENTS FOR REMOTE SUPPORT AND INSTALLATION

- LogMeIn or Terminal Services through a fast internet connection to allow ICCO remote access to the Program and Database to perform installation and support services.

V: OTHER CONSIDERATIONS

1. Customer is responsible for setting up and maintaining in working order ALL the hardware and software specified in this Exhibit B.
2. Customer is responsible for backing up the data and system files on the server and clients (workstations).
3. Minimum technical requirements reflect the minimum hardware and software required to run the Program. Depending on the size of Customers database you may need to acquire additional hardware and/or software to run Program more efficiently.
4. Generally, the latest service packs from Microsoft are required. ICCO will notify customer otherwise.

* CreditSoft supports 32 and 64 bit environments.

** CreditSoft supports all editions except SQL Express Edition. But Standard or Enterprise Edition is recommended.
